2013.....

2013....

- Lots has changed since the NW PPN started in 2013
- The North West were ahead with other professional networks – AHPs, Healthcare Science and Pharmacy
- Good opportunity to extend the reach
- Today is a real opportunity to celebrate the achievements of the past 10 years

Start with a 'wow'...!

‘Determined, consistent and enabled
PPs to be on the map’

North West Psychological Professions Network Impact Brief

Developing people
for health and
healthcare

Successes PPN Network

Still developing despite numerous policy and system changes

Wide breadth of innovation

Profession led

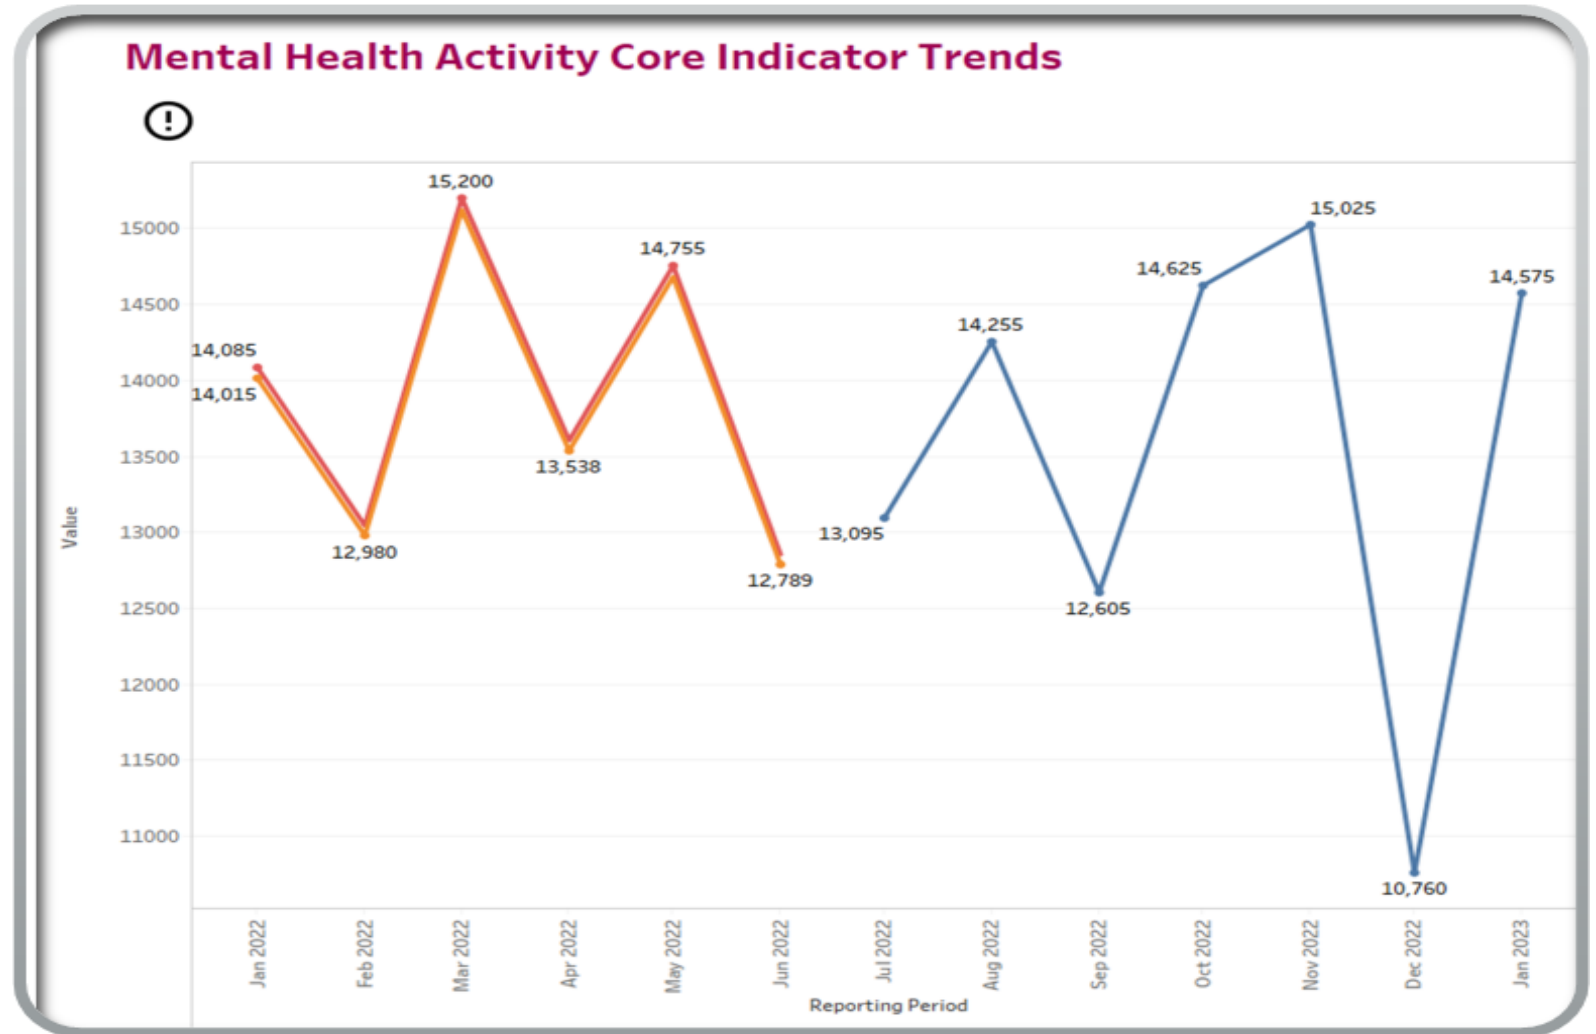

Driven the demand for newer roles

Challenges the PPN Network

Historical areas of deprivation and lack of investment

Psychologically informed services

‘Workforce’ challenges – retention, attraction, etc

Integration of some newer roles

An ever-increasing demand from our population.

Real opportunity for cross sector learning

The Oliver McGowan
Mandatory Training on
Learning Disability and
Autism elearning is now live

Look to the next 10 years

- Since we started planning this celebration, HEE is no more, we are all NHS England
- Don't stop the innovation but environment is changing
- Deliver the 'core' business such as METIP, Oliver McGowan, professional connections
- PPNs need to be as secure as other education structures such 'deaneries' and schools
- Needs to find our new 'Gita and Clare's' !
