

# Interpersonal Psychotherapy Training (IPT): Supervising the Supervisor

**Dates: 15th February 2017**

**Venue: Northern School of Child Psychotherapy (NSCAP), 34-36 Springwell Rd., Leeds, LS12 1AW**

## About the course:

This workshop will provide training for accredited IPT supervisors who wish to work with trainees working to an advanced level of practice and/or who are completing training as IPT supervisors. The course will guide participants through the supervisor's role in selecting candidates for advanced practice and supervisor training, conducting advanced practice supervision with training pairs and rating competence against the supervisor competency framework. The course will involve a combination of didactic teaching, case examples for small group discussion and role play.

## IPT Supervising the Supervisor will cover:

- Requirements for IPT supervisor training and the supervisor's role as gatekeeper to advanced practice and supervisor training
- Working with supervisor trainee pairs during cases five and six
- Supervising trainees with reference to supervision competencies
- Common accreditation issues

## Who is the IPT Supervising the Supervisor for?

Accredited IPT and IPT-A supervisors who have completed accreditation level supervision with at least two practitioner trainees. Please note - this training is funded for supervisors who meet criteria and are based in North West region. Applicants from other regions will need to self fund the training. This course will involve one training day (£200) plus monthly supervision over twelve months (£500).
