

26th Feb 2014 PPN North West Launch Event: Afternoon Worksheet

Welcome to the Launch of PPN North West!

We are looking forward to hearing your views and gathering ideas about how PPN North West can develop over the coming months and into the future. During today you will hear about the network and we will invite you to contribute to the discussion to help us start to identify what strengths and resources we have within our workforce. We want to hear all your ideas and how, as individuals or in groups, you would like to be involved – this might be by just being a member using the website through to wanting to contribute to the development of areas of special interest.

You might find it helpful to use the table below to make a note of your ideas during the morning. In the afternoon we will ask you to prioritise the two work areas that you feel are most important to you and your professional role and contribute to the workshop session. The facilitators will be available during breaks to gather any additional comments you would like to make; you can Tweet @NWPPN throughout the day; you can email us after the event at ppn.northwest@lancashirecare.nhs.uk; or you can leave this sheet with us at the end of the day.

PPN North West 4 Work Areas	Workshop Facilitators	Question 1 What examples of good practice / expertise / Innovation do you know of? – Include contact email	Question 2 How could this area be developed? - quick wins (6 mths) / medium term (1yr) / longer term (1-3 yrs)	Question 3 How could the network support your ideas? / How would you like to contribute?	Question 4 What is your level of interest in the area? 1 4 8 ← → None Interested Fully Active
